9 am You Call That a Quilt? America's Amazing Quilt Styles

Is quilting in America a dying art? Hardly. Quilting in America is so healthy, we can support four styles of quilts: Traditional, Studio/Art, Contemporary, and Modern. In this fascinating lecture, I take you through the details of each style and the history of how they came about. The audience gets an amazing history lesson and tons of inspiration. What kind of quilter are you?

11 am Ten Things I Know About Quilting And Life (I Think.)

I've got a lot to learn, but after almost eight successful years in the industry, I know some stuff. This super funny and tip-loaded lecture (with a few technique lessons blended in, too) I share what I've learned so far about quilting: how-to, what-if, mistakes, hard knocks, and why we make quilts at all. There are a few life lessons thrown in and a quilt show at the end, as always.

1 pm-4pm "A Quilt Called Whisper"

The Thousand Pyramid quilt is both modern and traditional. We'll learn to use the Fons & Porter 60-Degree Pyramid Ruler to cut our triangles; we'll also discuss how contrast still matters in monochrome quilts like "Whisper." Intermediate. Utilizes the Fons & Porter 60-degree Pyramid Ruler. NOTE: For fabric in this class, it is important to bring 15+ fat quarters in different shades of your favorite color of fabric: 5-6 lights, 5-6 mediums, 5-6 darks. BUT: the more fabric you bring, the more "aha" moments -- I promise. Truckloads welcome!
